EDUCATION

University of Washington, Seattle WA August 2011

Ph.D., Statistics

- Thesis Topic: *A Bayesian Surveillance System for Detecting Clusters of Non-Infectious Diseases.*
- Advisor: Professor Jon C. Wakefield.
- Area of Study: Spatial Epidemiology, Biostatistics, Markov Chain Monte Carlo Methods.

McGill University, Montreal QC December 2003

B.Sc., Joint Honours in Mathematics and Computer Science

- *First Class Honours.*
- Minor in Management.

ACADEMIC EXPERIENCE

Smith College, Northampton MA July 2018 to Present

Assistant Professor, Statistical and Data Sciences

- Courses taught:
 - Introduction to Data Science (SDS/MTH 192): Limited prerequisite introduction to data science.
 - Introduction to Probability and Statistics (SDS/MTH 220): Introductory modeling and statistical inference.

Amherst College, Amherst MA July 2017 to June 2018

Lecturer in Statistics, Mathematics and Statistics Department

- Courses taught:
 - Introduction to Statistics via Modeling (STAT 135): Introductory statistics and data science course.
 - Advanced Data Analysis (STAT 495): Senior capstone course on machine learning in preparation for senior theses

Middlebury College, Middlebury VT July 2015 to June 2017

Assistant Professor of Statistics, Mathematics Department

- Courses taught:
 - Introduction to Statistical and Data Sciences (MATH 116): Introductory statistics aimed primarily at non-math majors.

- Introduction to Data Science (MATH 216, new course): Analysing large and complex data sets using advanced statistical software.
- Statistical Learning (MATH 218, new course Spring 2017): Machine/statistical learning at a level appropriate for a student who hasn't taken an upper-level undergraduate probability course.
- Theory of Statistics (MATH 311): Upper-level undergraduate statistics course.

Reed College, Portland OR

July 2013 to June 2015

Visiting Assistant Professor of Statistics, Mathematics Department

- Responsibilities:
 - Teaching undergraduate probability and statistics courses.
 - Supervising senior theses.
- Courses taught:
 - Introduction to Probability and Statistics (MATH 141): Introductory statistics aimed primarily at non-math majors.
 - Probability (MATH 391): Upper-level undergraduate probability course.
 - Mathematical Statistics (MATH 392): Upper-level undergraduate statistics course.
 - Case Studies in Statistical Analysis (MATH 241, new course): Analysing large and complex data sets using advanced statistical software.

University of Washington Seattle, WA

June 2010 to August 2010

Pre-Doctoral Instructor, Statistics Department

- Courses taught:
 - Statistics for Engineers and Scientists (STAT/MATH 390): Introductory statistics for non-statistics science and engineering majors.

University of Washington Seattle, WA

September 2004 to June 2005

Teaching Assistant, Statistics Department

- Courses taught:
 - Basic Statistics (STAT 220): Introductory statistics for non-science majors.

PROFESSIONAL
EXPERIENCE

Decision Support Engineering Analyst

June 2011 to March 2013

Ads Metrics, Google Inc., Mountain View, CA

- Quantitative analyst in Ads Metrics (analyst sub-team of Google AdWords), tasked with ensuring the quality of search ads shown on google.com.
- Extensive use of Google's internal MapReduce system for distributed computing on clusters of computers
- Use of advanced statistical techniques for analysis in a "big data" setting.
- Communicated results and findings to other analysts, engineers, and managers in the Ads Quality branch of Google AdWords.
- Specific projects contributed to as an analyst: a) Long-Term Value revamping of the Google AdWords auction procedure b) Ads Human Evaluation, members of which analyze user ratings of ads shown on google.com c) Personalization effort to optimize ads targeting on google.com.

Decision Support Engineering Analyst Intern

January 2010 to March 2010

Ads Metrics, Google Inc., Mountain View, CA

- Same as full time position described above.
- Specific projects contributed to as an analyst: Task Classification Project, where the intent of Google users are modeled based on search queries and ad clicks.

PEER-REVIEWED
PUBLICATIONS

PREPRINTS OR IN
PREPARATION

- [7] C. Ismay, A.Y. Kim. (2018) ModernDive: An Introduction to Statistical and Data Sciences via R
- [8] T. Singh, A.Y. Kim. (2018) Regression and Matching for Causal Inference.
- [9] D. Allen, A.Y. Kim. (2018) Estimating Species-Specific Competition Coefficients with a Bayesian Hierarchical Model of the Neighborhood Effect of Competition on Tree Growth.

SOFTWARE

- Instructor for DataCamp's "Modeling with Data in the Tidyverse."
- Maintainer of the following R open-source software packages:
 - `moderndive`: Datasets and wrapper functions for tidyverse-friendly introductory linear regression, used in "ModernDive: An Introduction to Statistical and Data Sciences via R" and DataCamp's "Modeling with Data in the Tidyverse."
 - `resampled`: Package of data sets from "Mathematical Statistics with Resampling in R" (1st Ed. 2011, 2nd Ed. 2018) by Laura Chihara and Tim Hesterberg.
 - `fivethirtyeight`: Datasets and code published by the data journalism website "FiveThirtyEight."
 - `SpatialEpi`: Methods and data for cluster detection and disease mapping.
- Contributor to the following R open-source software packages:
 - `infer`: Package for Tidyverse-friendly statistical inference
 - `oilabs`: Data and code necessary for R labs accompanying OpenIntro textbook.

AWARDS

- Dorothy M. Gilford Teaching Award: University of Washington Department of Statistics, 2005. Awarded annually to recognize the best teaching assistant.
- Bill and Hilde Birnbaum Fellowship: University of Washington Department of Statistics, 2004. Scholarship awarded annually to one incoming student.

STUDENT
ADVISING AND
RESEARCH

- Senior Thesis: Jonathan Che, “Cross-Validation for Model Assessment and Selection with Extensions to Spatial Data” Spring 2018.
- Senior Thesis: James Burke, “Baseball as a Markov Chain: A Bayesian Approach” Spring 2017.
- Independent Study (MATH 500): Trisha Singh, reading course on causal inference, Spring 2017.
- Independent Study (MATH 500): Mohamed Hussein, reading course on statistical/machine learning, Fall 2016.
- Senior Thesis: Blake Rosenthal, “Mapping Oregon Groundwater: A Geo-Statistical Analysis in Spatial Interpolation,” Spring 2015.
- Senior Thesis (co-advised with Prof. B. Thomas): Carl Proepper, “Generalized statistical techniques for differentiating dark matter models at the Large Hadron Collider,” Spring 2015.
- Independent Study (MATH 482): Liam Bowcock, reading course on measure theoretic probability, Spring 2015.
- Paper: Adriana Escobedo-Land, “OkCupid Profile Data for Introductory Statistics and Data Science Courses,” 2015.
- Summer Science Research Fellowship: Jacob Menick, “Evaluating Latent Dirichlet Allocation Topics,” Summer 2014.
- Senior Thesis: Kevin Gallagher, “Building a Better Mortgage-Backed Security: Correctly Pricing Associated Risks,” Spring 2014.
- Senior Thesis: Tristan Hechtel, “Pay It Forward” Tuition: An Econometric Analysis,” Spring 2014.
- Senior Thesis: Torrey Payne, “The Generalist Bias: Estimating the Value of Three-Point Shooting in the National Basketball Association,” Spring 2014.
- Senior Thesis: Joan Wang, “Food Hinterlands: The Sprawling of Food Deserts,” Spring 2014.

SELECTED
PRESENTATIONS

- Paper, August 2018 “Dismantling Math, Stats, and CS Silos: PCMI Guidelines for Undergraduate Majors in Data Science.” Joint Statistical Meetings, Vancouver BC.
- Webinar, June 2018: “Tame” data principles and the fivethirtyeight R package. CAUSEweb Webinar series.
- Meetup, May 2018: ModernDive: Statistical Inference via Data Science. Greater Boston useR Group, Boston MA.
- Virtual poster, May 2018: Smaller investments and bigger payoffs of using R in intro courses via “tame data.” Electronic Conference On Teaching Statistics (eCOTS).
- Meetup, December 2017: Modeling the effects of interspecies competition on the growth of trees. 5College Stats and Data Science Research Bytes, Western Mass Statistics and Data Science Meetup, Amherst MA.
- Meetup, April 2016: How to Teach Data Science. Burlington Data Scientists Meetup, Burlington VT.
- Tech Talk, June 2015: Teaching data science to undergrads: an ex-Google’s tales from the trenches. Google Inc, Mountain View, CA.
- Paper, August 2010: A Bayesian Model for Detecting Clusters of Non-Infectious Diseases. Joint Statistical Meetings, Vancouver BC.
- Paper, August 2008: Using Labeled Data to Evaluate Change Detectors in a Multivariate Streaming Environment. Joint Statistical Meetings, Denver CO.
- Paper, May 2008: Using Labeled Data to Evaluate Change Detectors in a Multivariate Streaming Environment. Interface Conference, Durham NC.
- Report, February 2006: Change-point Detection in Multivariate Data Streams. Counter Improvised Explosive Device Meeting, Naval Research Laboratory, Washington DC.

- PANELS AND WORKSHOPS
- Session chair for “An Emerging Ecosystem for Data Science and Statistics Education,” Joint Statistical Meetings, July 2018, Vancouver BC.
 - Career speakers panel, September 2017. StatFest, Emory University, Atlanta GA.
 - “A Fully Customizable Textbook for Introductory Statistics/Data Science Courses,” USCOTS, June 2017, State College PA.
 - “Open Source Resources for Mathematics: Benefits and Costs,” Mathematical Association of America Mathfest conference, August 2014, Portland OR.
 - Career speakers panel, May 2014. Statistical Society of Canada Annual Meeting Student Conference, Toronto ON.
- JOURNAL REVIEW SERVICE
- The R Journal
 - The American Statistician
 - Journal for Quantitative Analysis in Sports
 - Technology Innovations in Statistics Education
 - Journal of Statistics Education
- EXTERNAL SERVICE
- Local organizing committee, 2018 StatFest: a one-day event aimed at encouraging undergraduate students from under-represented groups to consider graduate studies and careers in the statistical sciences.
 - Organizing committee, 2017 ASA DataFest.
 - Volunteer for OpenIntro open-source introductory statistics textbook.
- COLLEGE SERVICE
- Amherst College StatFellows coordinator: StatFellows are undergraduate statistics ambassadors for Amherst College performing tutoring and statistical consulting across campus, 2017-2018.
 - Chief organizer of ASA DataFest Vermont (Middlebury College), 2017.
 - Co-organizer of inaugural ASA DataFest Vermont (with P. Yates, Saint Michael’s College), 2016.
 - Volunteer judge for ASA DataFest Five Colleges (UMass Amherst) 2016 and 2017.
 - Co-creator of Reed College statistics concentration within mathematics major (with Prof. A. Jones), 2015.
- WORKSHOPS ATTENDED
- 2016 NES/MAA Vermont Workshop on “Teaching Calculus Now” by Prof. David Bressoud, Saint Michael’s College, Colchester VT, October 2016.
 - Park City Mathematics Institute Summer Session Faculty Program on establishing a curriculum for Data Science, Midway UT, July 2016.
 - Big Data: Implications for the Liberal Arts Curriculum, Wellesley College, Wellesley MA, January 2016.
 - Advanced R, JSM 2015, Seattle WA, July 2015.
 - New Researchers Conference, JSM 2015, Seattle WA, July 2015.
 - OpenStreetMaps workshop, Foss4G Free and Open Source Software for Geospatial conference, Portland OR, Sept 2014.
- PERSONAL
- Languages: English, French (fluent), Korean (conversational).
 - Interests: History, hiking, standup paddleboarding, hockey, skiing, bicycling, and backcountry camping.
- LAST UPDATED 2018/09/02
