StatFest 2021 | Virtual | September 18-19, 2021

Committee on Minorities in Statistics

Join us for this year's StatFest on September 18, 2021 and September 19, 2021!

StatFest is traditionally a one-day conference aimed at encouraging undergraduate students from historically underrepresented groups to consider careers and graduate studies in the statistical sciences. StatFest will be a two-half day conference this year given the use of a virtual platform.
